

Summer Concert Series - Concert in the Oval, Palmerston North, 12 February 2012

The launch of the two major free Summer Concerts in Palmerston North is by way of The Phoenix Foundation, supported by The Soul Collective and Ryan Edwards. The Phoenix Foundation with acclaimed gold albums and movie tracks to their name, as well as recent rave reviews in Europe are one of NZ's most innovative and respected bands.

From intelligent and infectious pop/rock gems, to epic psychedelic prog rock, The Phoenix Foundation's music is a glorious pop polyglot: sunbleached harmonies, chiming guitars, progressive synthscapes and subliminal rhythms.

In April 2010 The Phoenix Foundation released their long awaited fourth full-length album - Buffalo: No doubt their most collaborative and unique work thus far.

Come along and enjoy this amazing group in the unique setting of the Massey University Oval. Food and refreshments available.
